

THE COLOUR BOX NEWS

SPORT

We have great fun exercising and playing sport games in the garden! Behold, I present to you the new Serena Williams, Joe Root, Lionel Messi, Melissa Coutts!! New dream team in the making 🏆
(Physical development)

We set up the garden with balls, baskets, bats, rackets, cones and introduce tennis, football, basketball, cricket, and volleyball. Children have to take turns and try something new.
(Personal Development, Understanding)

We explain the rules, give children instructions and play with them to enhance their natural curiosity in learning something new or practising something they love! Children are happy to give it a go, not giving up!
(Gross motor skills, Personal and Emotional development)

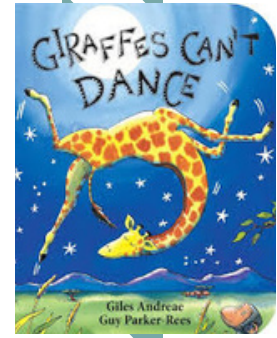

Antonio Gaudi and his famous buildings

Inspired by his whimsical buildings we use our imagination and creativity to complete our unique Gaudi display

Book of the Week

Vocabulary introduced:

exercise, training, practise, athlete, game, referee, win, team player, sport names, stretch, catch, reach, throw, sport equipment names

We enjoy an obstacle race practising our fine and gross motor skills, balancing, body movement awareness. Children have to hit targets, balance on beams, run through cones, go through a tunnel.

We enjoy our ice sensory activity using water paint to mix colours and paint the ice.

We use small brushes to paint garden leaves and mark make on the tray.

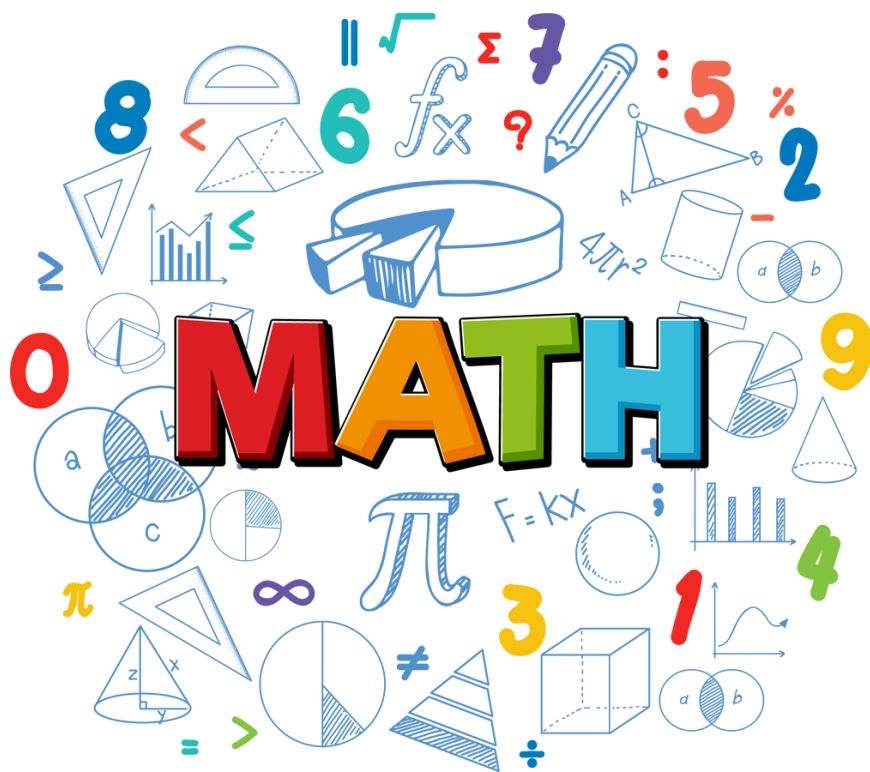

We love playing in the home corner, introducing play scenarios and imitating actions we observed at home.

We always find time to read books during the day!

NEXT WEEK AT THE COLOUR BOX

The Early Years Foundation Stage (national framework for the early years) requires that settings provide children with 'opportunities to develop and improve their skills in counting, understanding and using numbers, calculating simple addition and subtraction problems; and to describe shapes, spaces, and measures'

Learning and development is about providing a range of activities and resources that support children's individual needs. Focus on maths by looking at **shape**, **space** and **measure** with imaginative play. Develop an understanding of maths in the EYFS through stories, songs and games.
